Engineering  
Mechanics

2010 - 2012

- Specialist of  
Mining Equipment

### SOFT SKILLS

- Critical Thinking
- Problem solving
- Time management
- Good communication

### PROFILE

Novice front-end developer.

Seeking an opportunity to grow as a Junior Developer and apply my knowledge in creating innovative software solutions.

No professional experience since in the production, but I work on collaborative and my own projects, and the results of my work can be seen on my GitHub. But I am very interested in web development and I plan to develop in this direction.

### WORK EXPERIENCE

#### School++

##### Computer Science

- Studies Algorithms and Data structures, Object-Oriented Programming (OOP), Basics of Java
- Creates my versions of such popular collections as ArrayList, LinkedList, Stack and Queue.

##### Front-end Developing

- Studies responsible web design, Cascading Style Sheets, framework React
- Work on collaborative and on my own projects
- Now developing my project trello, that looks like a your day task planner or for working
